INTRODUCCION

El presente documento tiene inmerso el paso a paso para la construcción del control de versionamiento atreves del repositorio GITHUB. El cual nos permite siempre tener la instancia adecuada del código que contiene la lógica del negocio del proyecto en construcción.

OBJETIVOS

- Aprender a configurar el repositorio GITHUB
- Hacer control de versión del código que se genera en el desarrollo de un proyecto.

DESARROLLO DE LA ACTIVIDAD

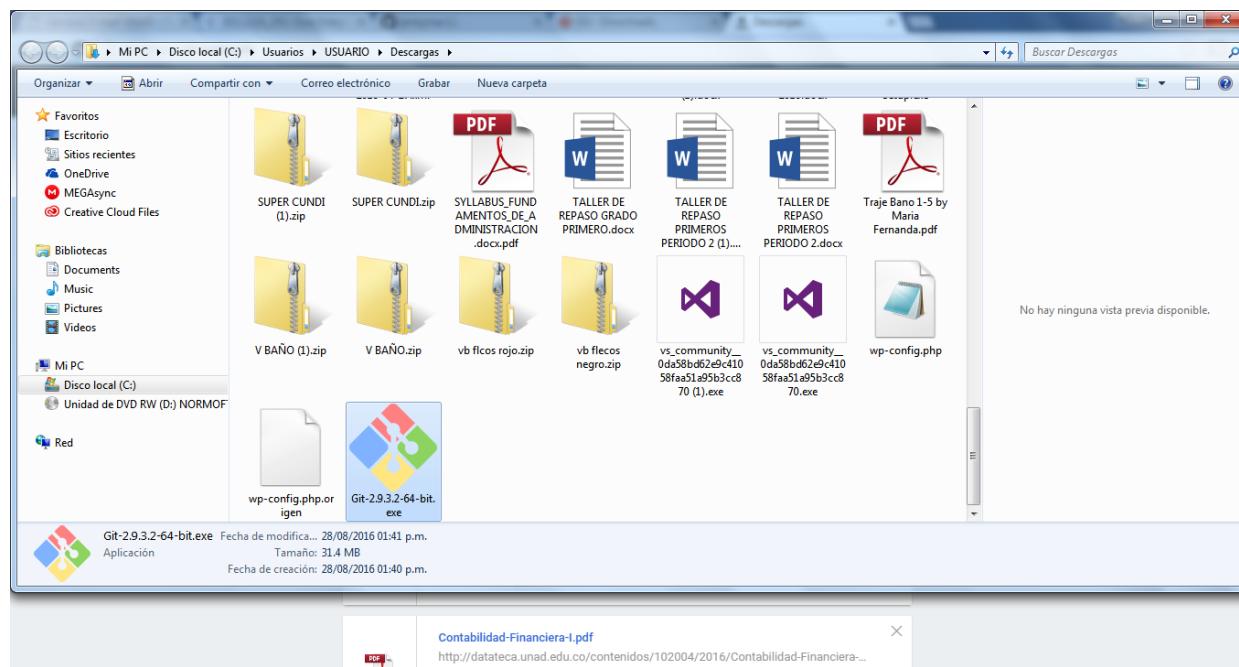

- . Configurar una cuenta de usuario en la plataforma www.github.com

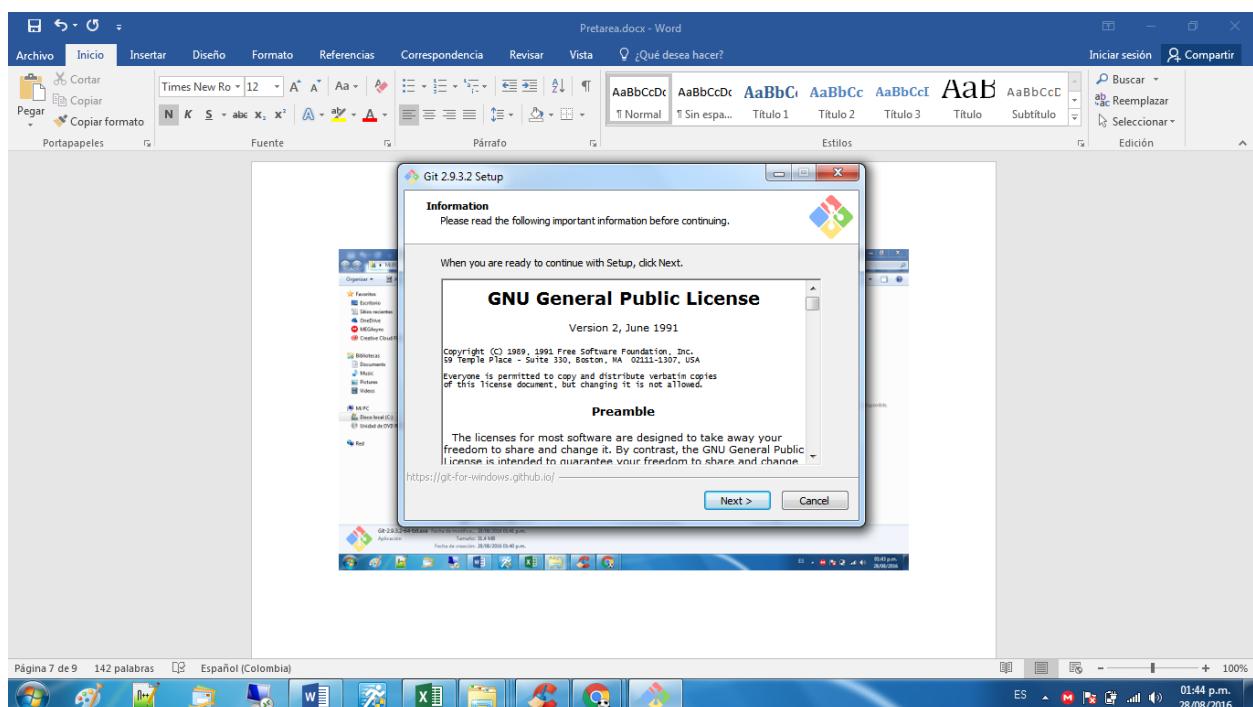

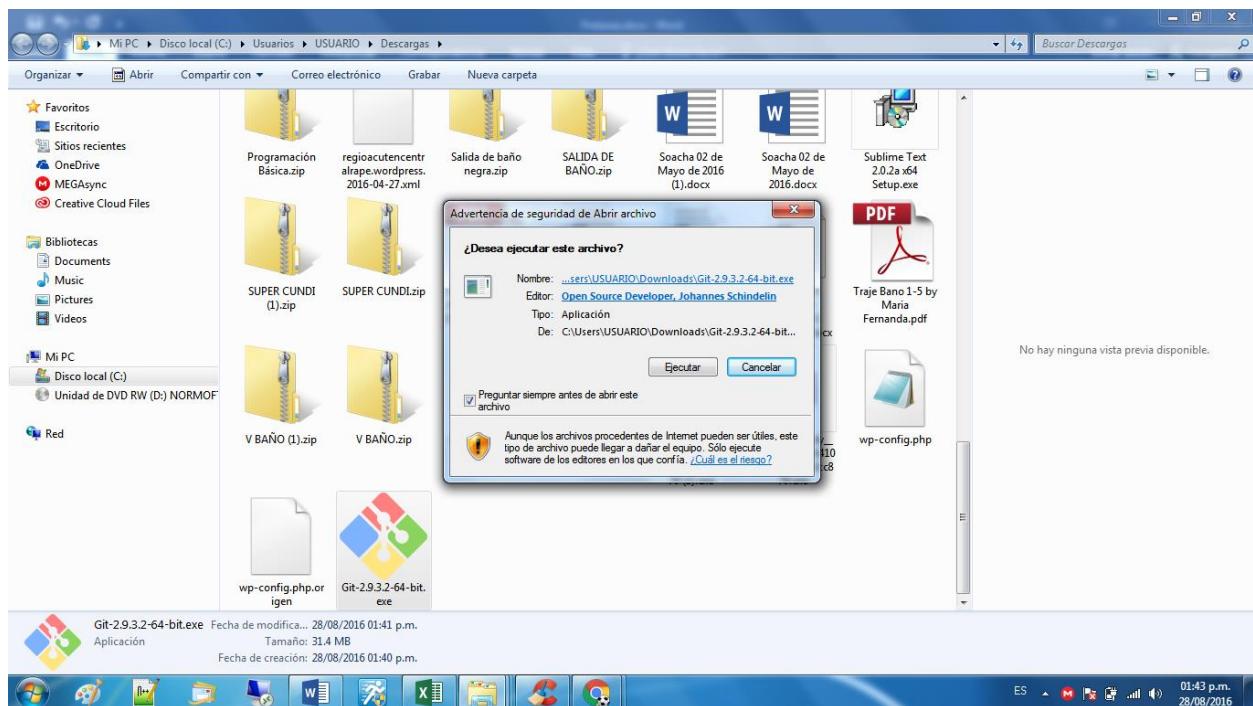

<https://github.com/jennymar11>

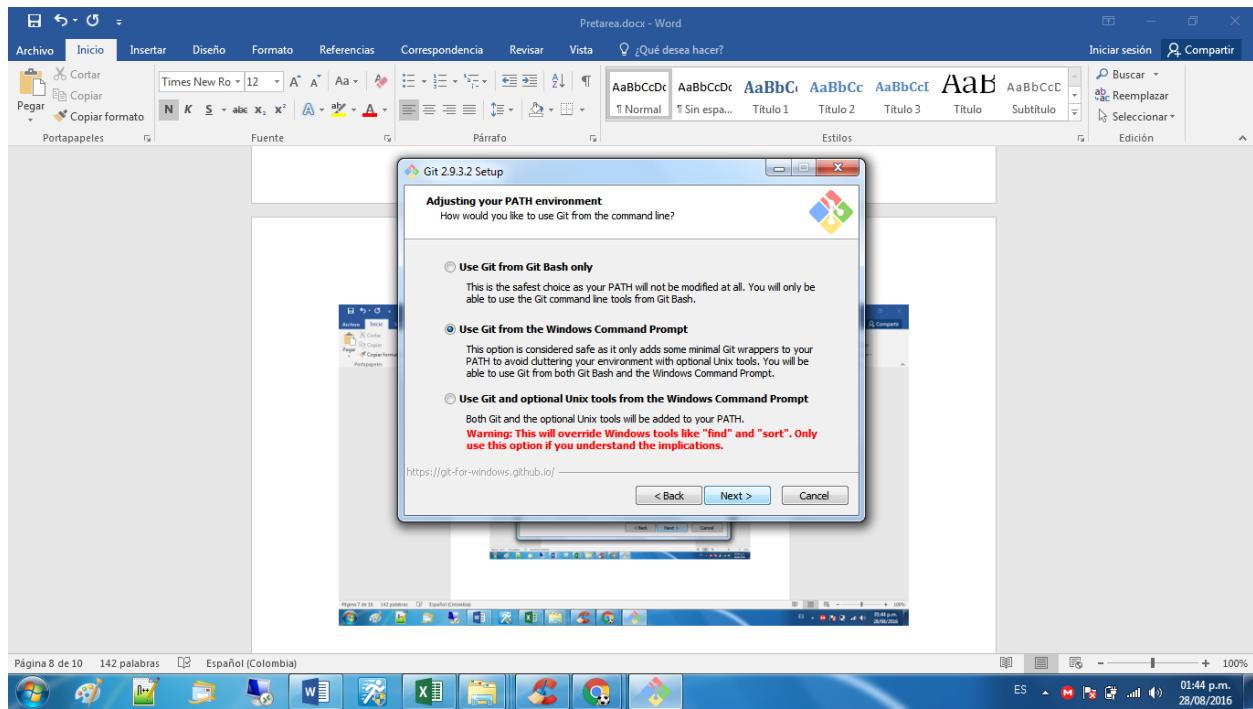

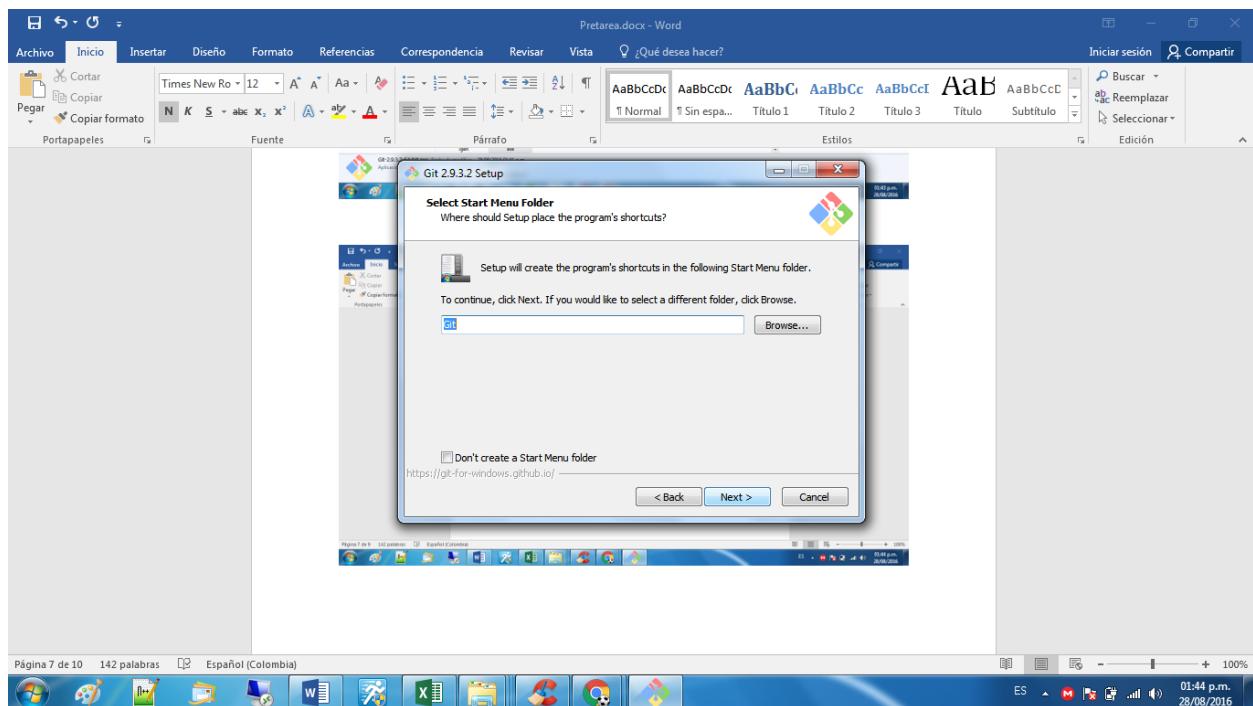

The screenshot shows a GitHub user profile for the account `jennymar11`. The profile includes a profile picture of a woman, the username `jennymar11`, and a bio placeholder `Add a bio`. It shows the user joined on `28 Aug 2016` and has 0 followers, 0 starred repositories, and 0 repositories followed. A repository named `trabajodise-odesitiosweb` is listed under `Popular repositories`. Below the repository is a contribution graph for the last year, which is currently empty. A summary of contributions is provided, along with a link to a guide for creating a first repository.

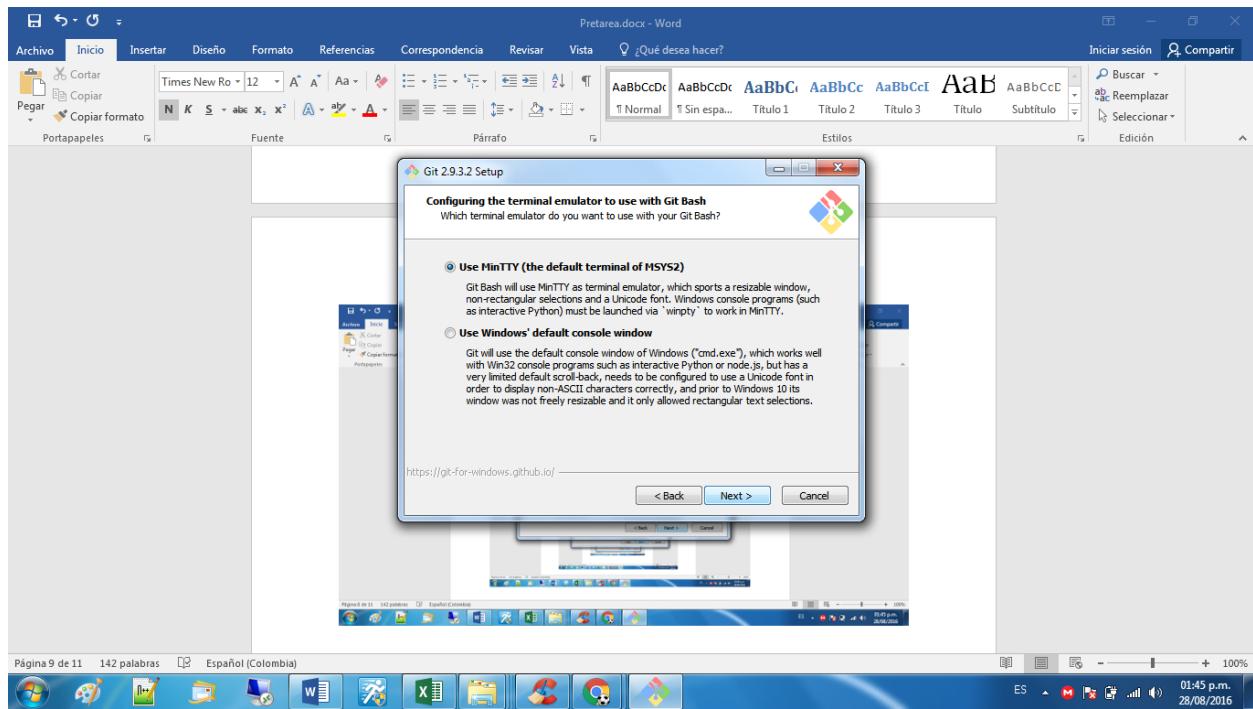

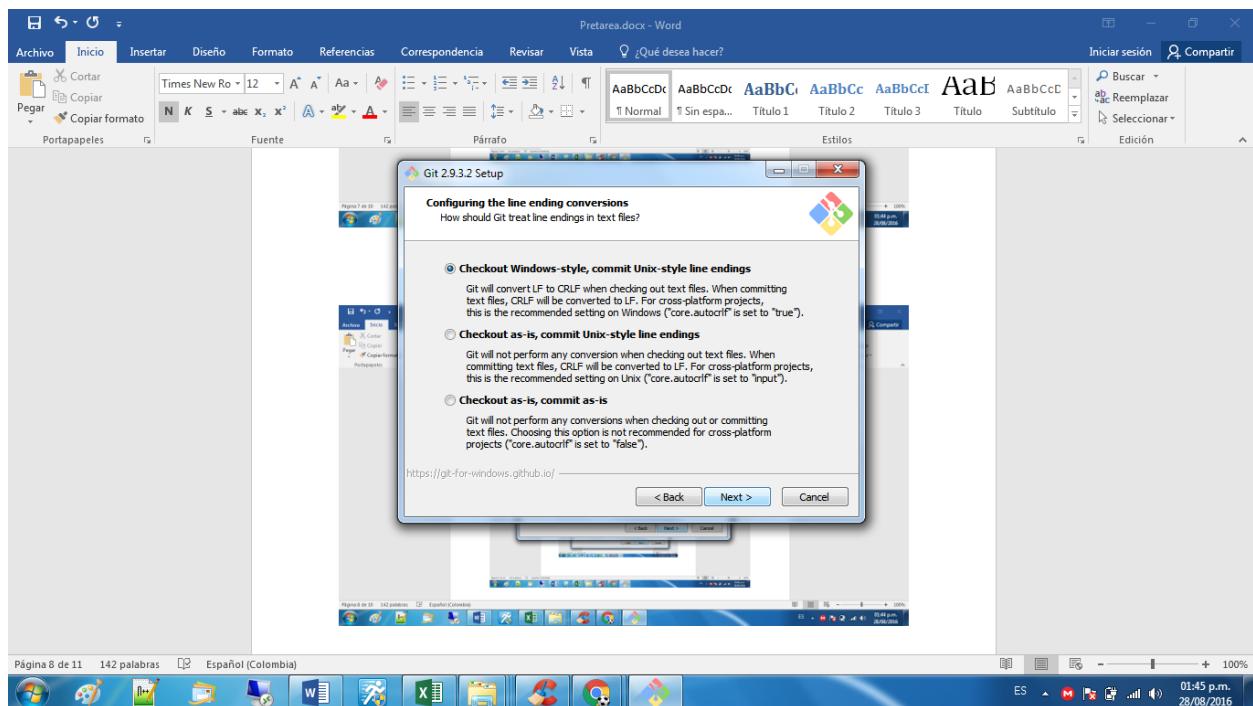

. Instalar el cliente de GIT para escritorio en su computador

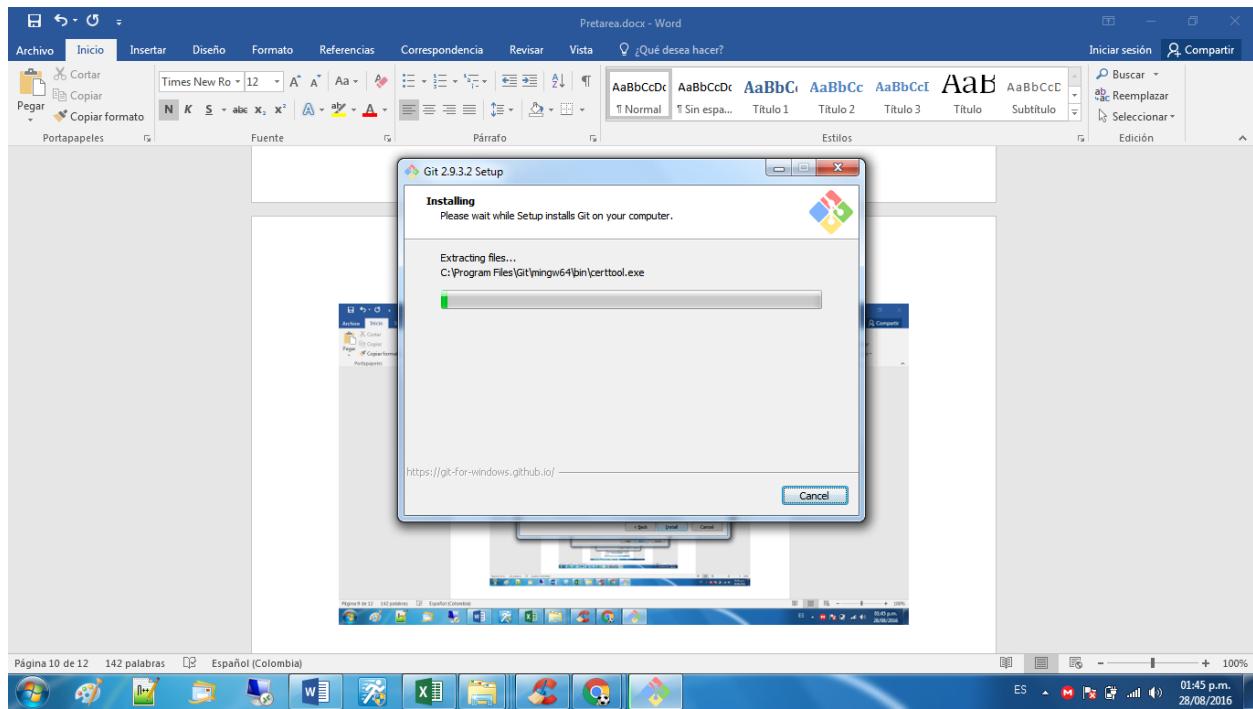

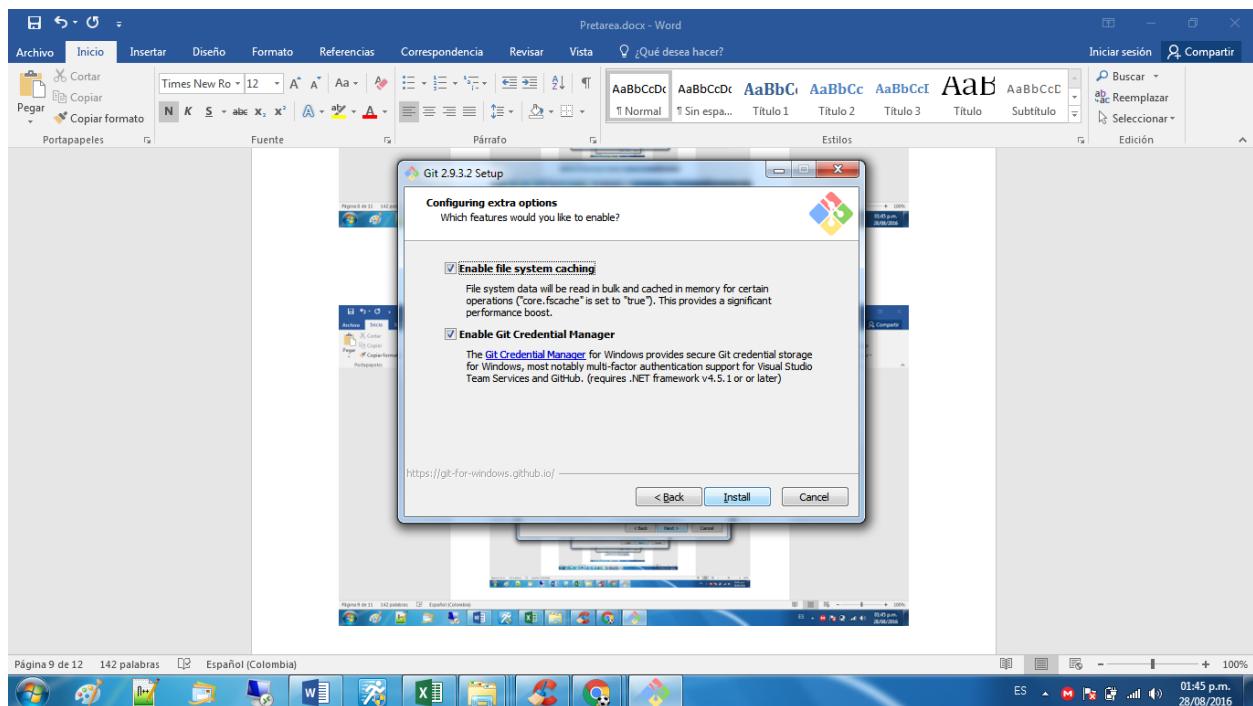

The screenshot shows the official Git website at <https://git-scm.com/downloads>. The main navigation menu includes About, Documentation, Blog, Downloads (selected), GUI Clients, Logos, and Community. A sidebar links to the Pro Git book. The central area features a "Downloads" section with tabs for Mac OS X, Windows, Linux, and Solaris. A large monitor icon displays the latest source release version 2.9.3. Below the tabs, it says "Older releases are available and the Git source repository is on GitHub." The "GUI Clients" section lists several tools like git-gui and gitk, with a link to "View GUI Clients →". The "Logos" section shows various Git logos in PNG and EPS formats, with a link to "View Logos →". At the bottom, there's a "Git via Git" section and a file download progress bar for "Git-2.9.3.2-64-bit.exe".

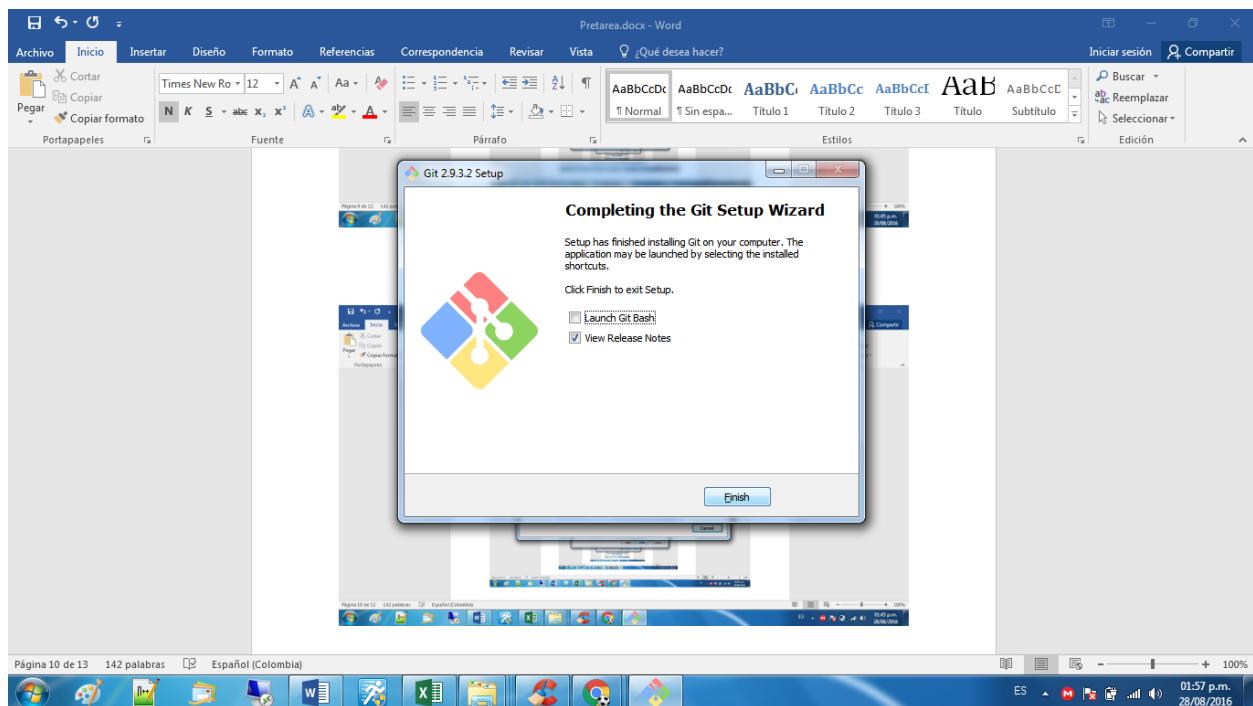

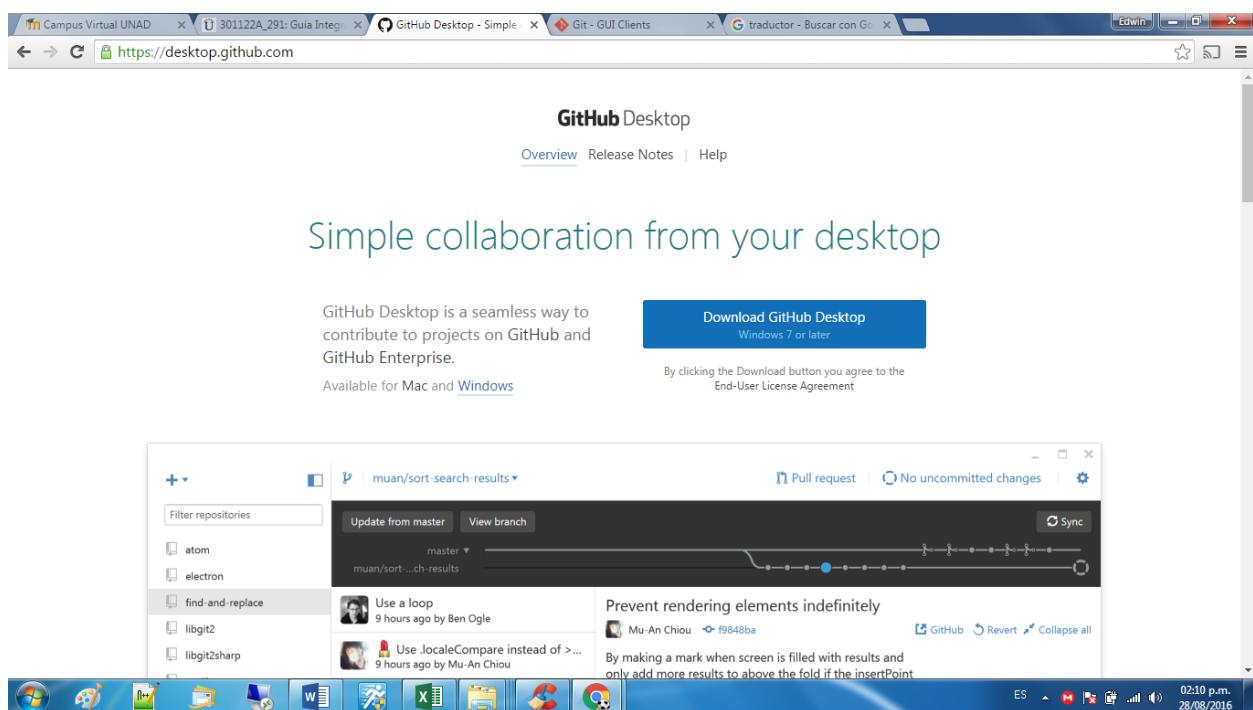

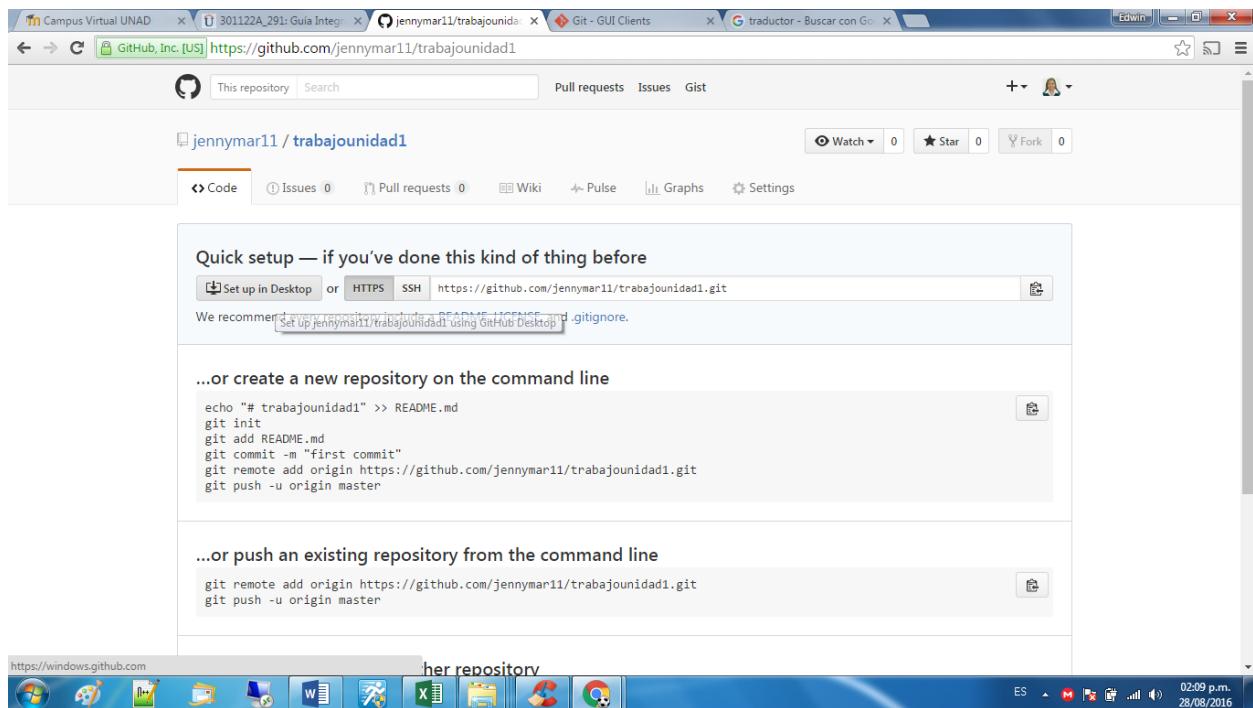

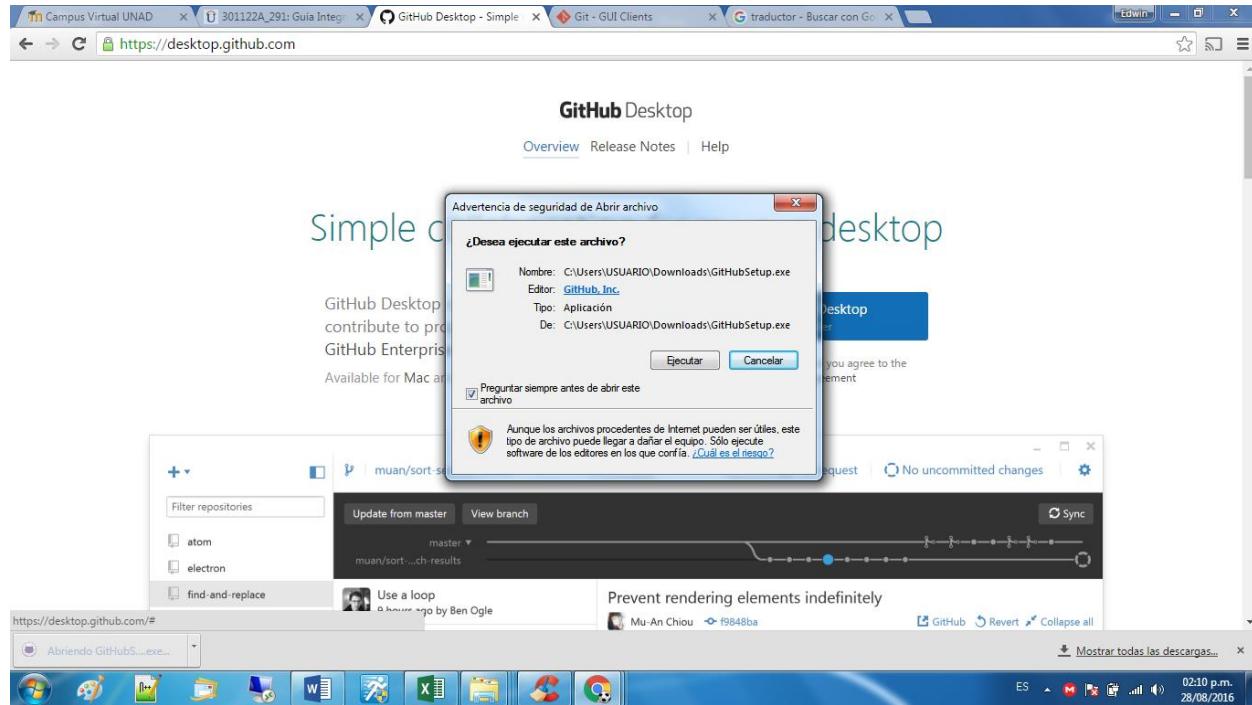

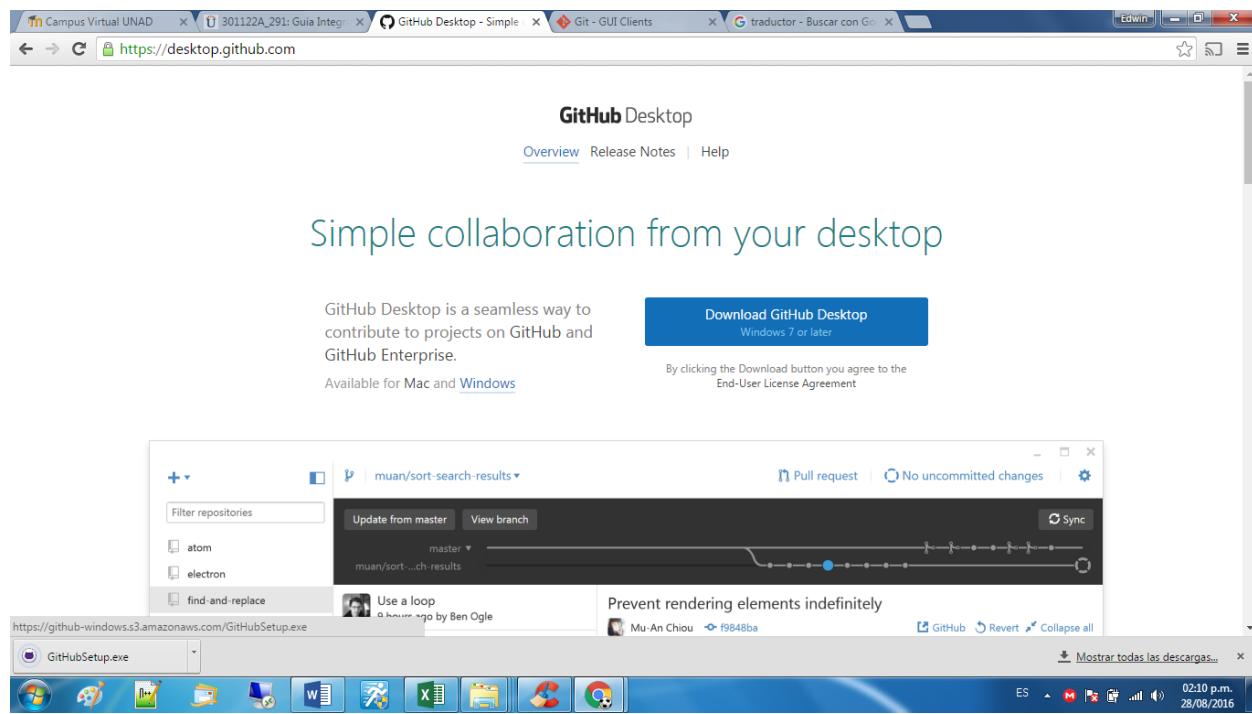

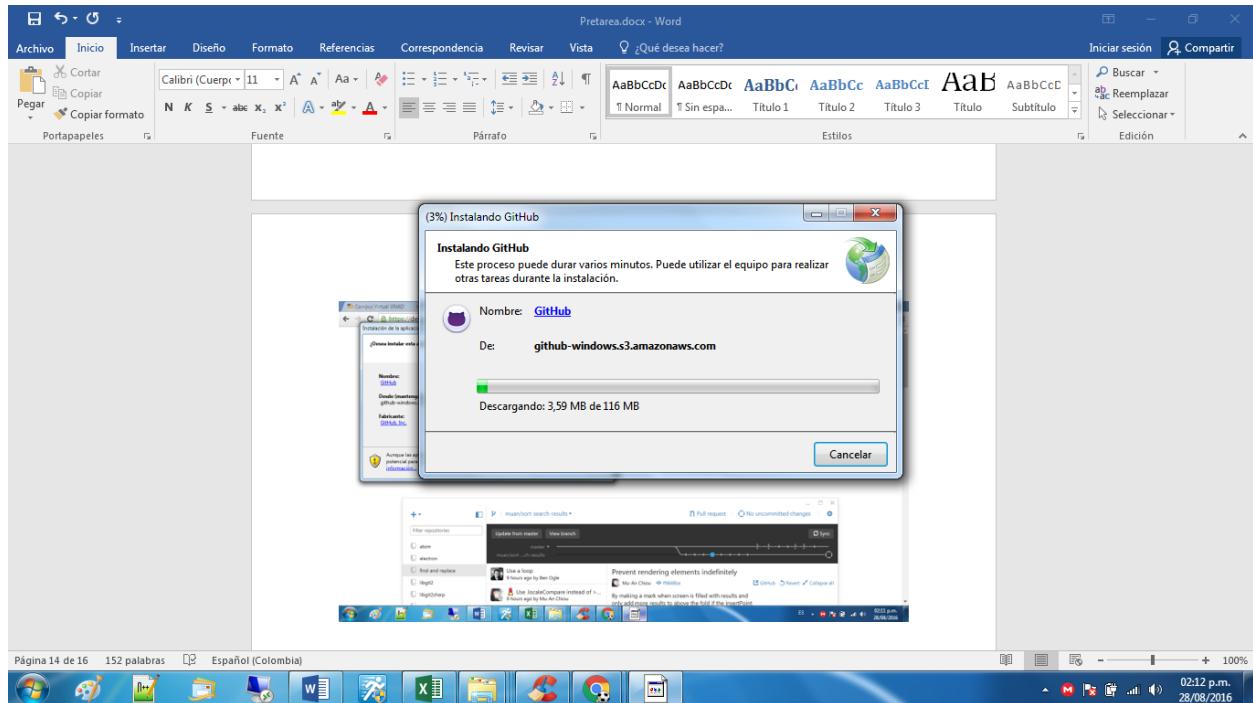

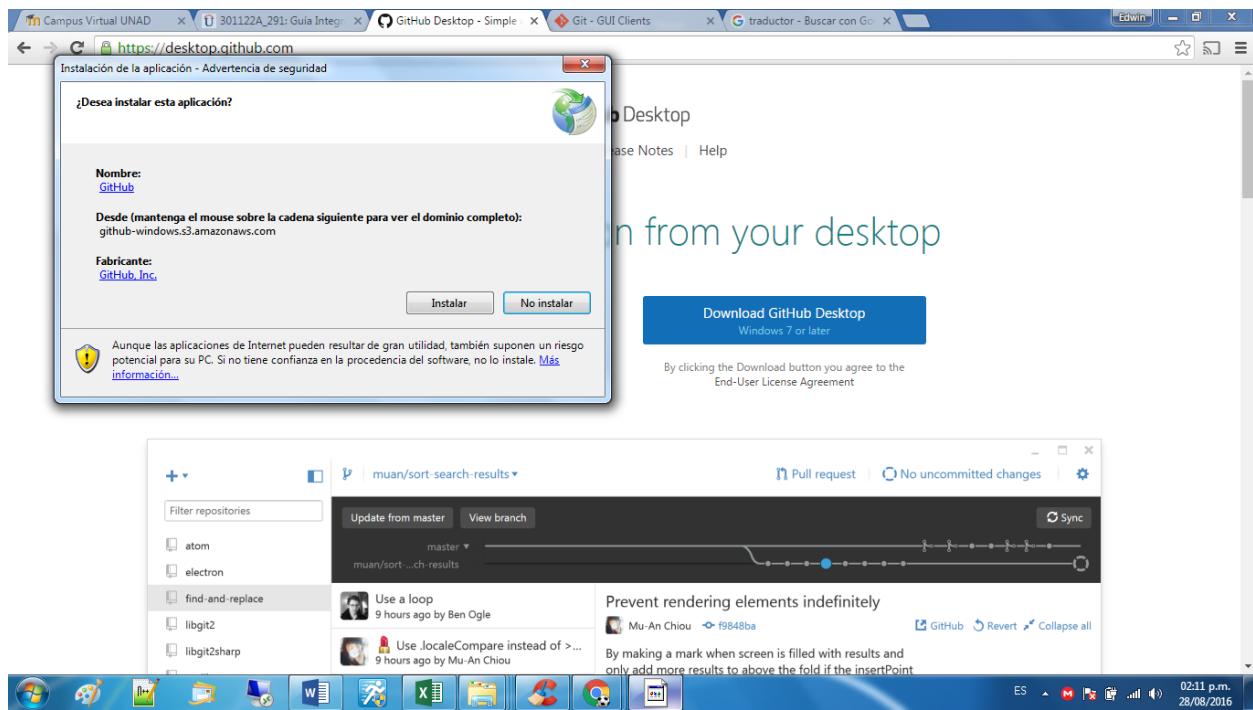

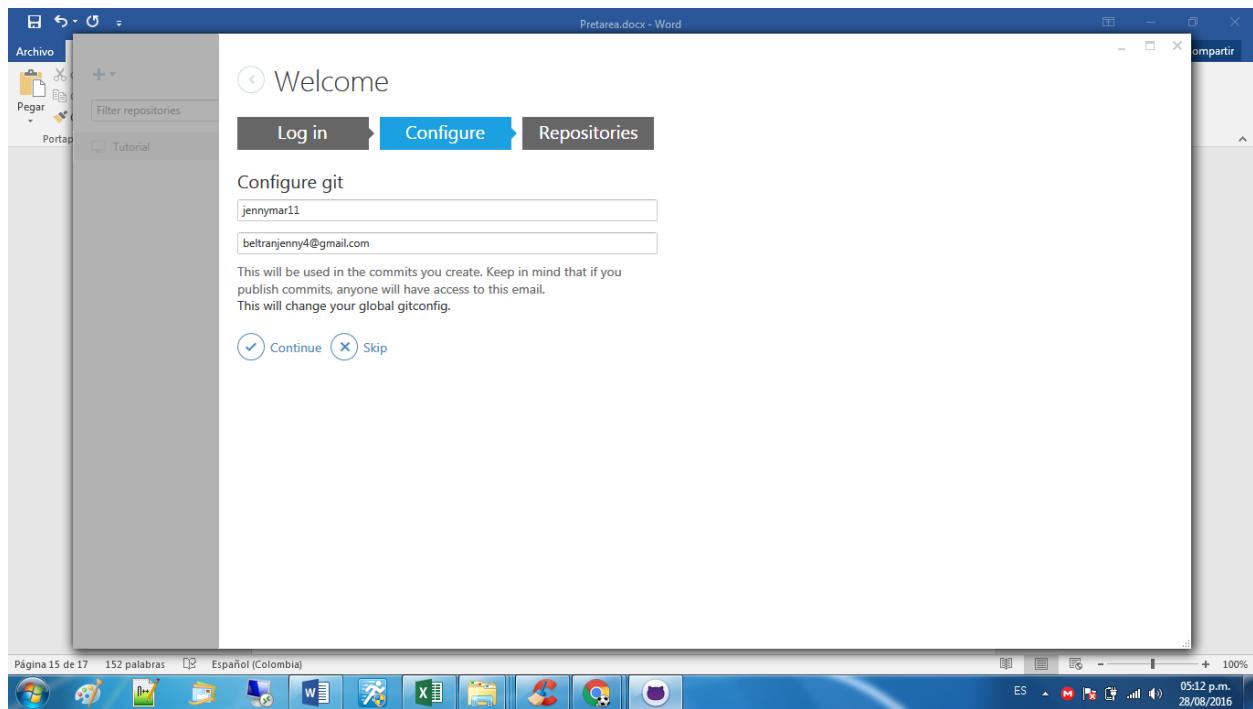

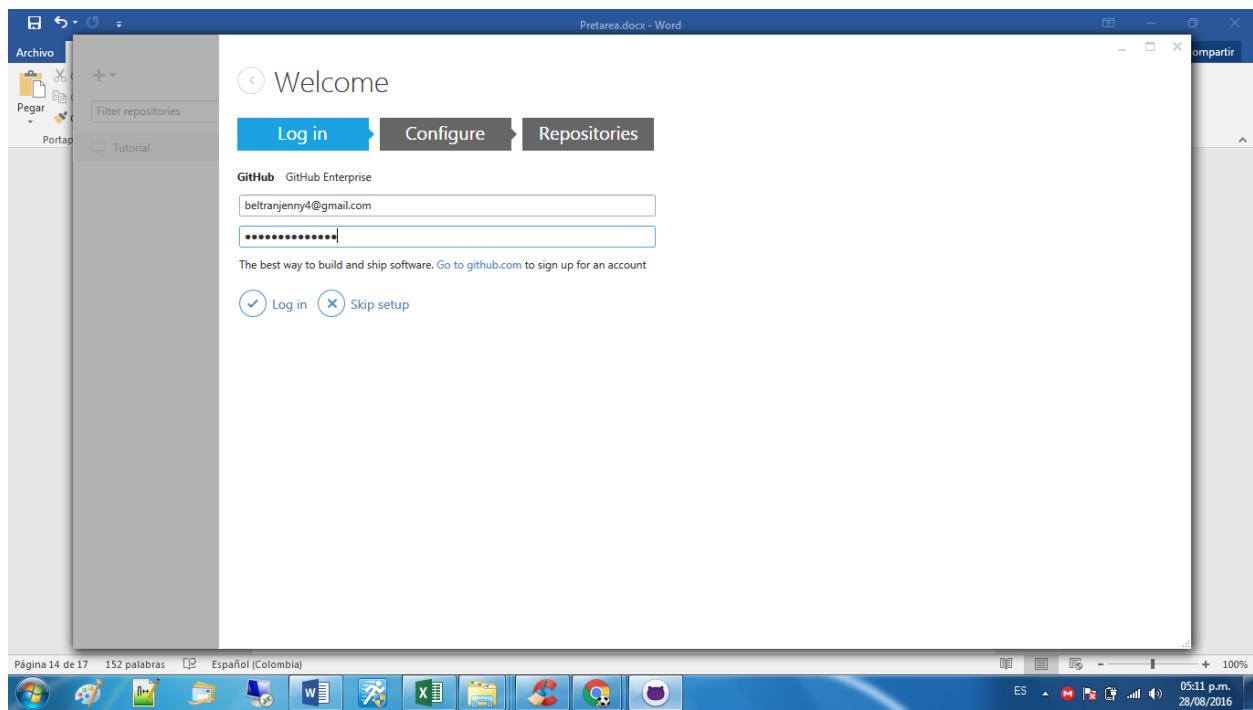

A screenshot of a web browser window showing the "Git for Windows v2.9.3(2) Release Notes" page. The page has a blue header with the title "Git for Windows v2.9.3(2) Release Notes" and a sub-header "Latest update: August 25th 2016". Below the header is a large blue box containing the word "Introduction". The main content area contains text about specific issues for the Windows release and links to the Git project. A sidebar on the left lists links to "HOMEPAGE", "FAQ", "CONTRIBUTE", "BUGS", and "QUESTIONS". The browser's address bar shows the URL "file:///C/Program%20Files/Git/ReleaseNotes.html". The desktop taskbar at the bottom shows the same pinned icons and the date and time as 01:57 p.m. on 28/08/2016.

Instalar el cliente de GITHUB para escritorio en su computador

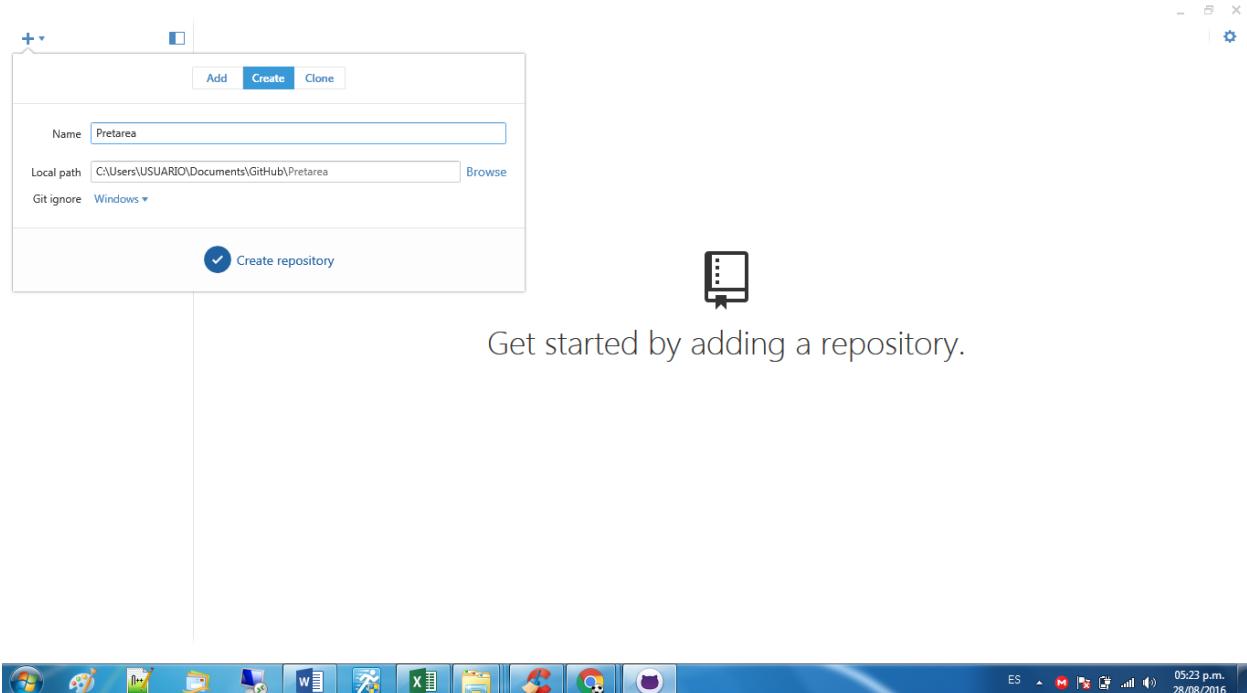

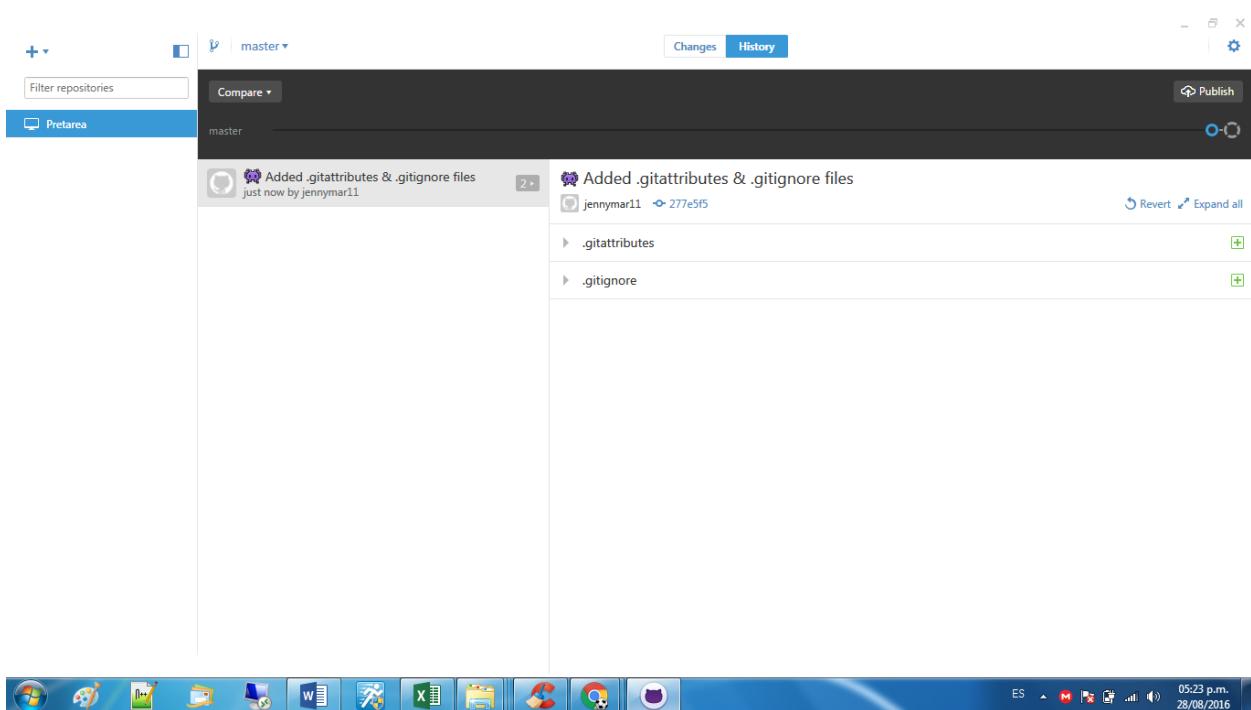

El estudiante creara un repositorio de prueba el cual debe estar sincronizado con el cliente de escritorio y su cuenta local de GITHUB

Get started by adding a repository.

El estudiante publicará mediante documento PDF el link de su repositorio creado en GITHUB.

<https://github.com/jennymar11/Pretarea>

CONCLUSIONES

Se puede concluir que con este documento se aprendió a instalar y configurar el control de versiones GITHUB, el cual tiene como finalidad registrar la información de código creadas y modificadas y así poder hacer uso de ellas cuando se requiera
